DRYTECH DIAMOND WIRE

DryTech Diamond Wire is a long life, free-cutting sintered wire, universal for use on most aggregates through standard reinforcing levels. From the diamond bead, to the carrier wire, it has been manufactured with attention to detail and quality at every point.

A key feature of the wire is the quality of the bead - by using a combination of high quality diamond and a unique bonding system, DryTech has been proven to give excellent life without sacrificing on speed. It's a real top performer.

SPECIFICATION DETAILS

- Possible to cut 20m² at a time without water
- Durability life is 2 to 5 times longer than that of a conventional diamond wire
- Despite the wire's wide-angle, initial drive is smooth
- The unique shape of beads makes DryTech wire long-lasting and durable
- No one-sided wear or slip phenomenon

TECHNICAL SPECIFICATION

Product description	Precision Dry Concrete Cutting
Application	Precision cutting of Concrete structures, Pollution sensitive areas, Complexes where facility shut down is not possible; hospitals, schools, housing, airports, shopping district, public facilities
Number of beads	45 / 48 / 53 / 59 / 63 / 80 / 83 100BPM
Bead diameter	8mmØ, 9mmØ, 10mmØ, 11mmØ
Wet/Dry	Dry Cutting

Diameter	BPM
Ø 8	59 ~ 100
Ø 9	53 ~ 83
Ø 10	45 ~ 63
Ø 11	48 ~ 80
